Class of 2013
BFA in Film/Animation/Video
Honor Roll, 2012 Department Head, 3.87 GPA

Brown University
Classes in English, Education, Gender & Sexuality, and Modern Culture & Media

EXPERIENCE

Product Designer **MAY 2016–PRESENT**
Comcast Corporation

Contribute to the overall vision and user strategy for XFINITY apps, from concept exploration through implementation, working closely with other designers, user researchers, and software engineers to craft features. Design rich and intuitive user experiences, juggling quickly changing deadlines and priorities.

Freelance UX & Product Designer **JAN 2015–MAY 2016**

Lead design projects across multiple product launches by setting a vision for the user experience. Work closely with leadership and development teams to determine high-level strategic decisions. Design low and high-fidelity mockups. Perform UX research using interviews, surveys, diary studies, etc.

Lead UI Designer **JAN 2014–NOV 2014**
Verificent Technologies

Design web and iOS-based application interfaces in low- and high-fidelity for all Verificent products.

Freelance Designer & Developer **JAN 2011–APR 2013**

PROJECTS

Real World **FEB 2016**
Designed and developed a game builder with which users can build and play live action role-playing games.
<http://www.real-world.online>

Wayfinder **FEB 2016**
Designed and developed a discovery app for finding places to visit on a road trip.
